

KERNEELS

I modified our car into a time machine. Now we can go back into the past and buy cheap petrol.

This is your best idea ever! Lets go now and buy some cheap petrol.

We can't. It's too far back in time and the petrol here is too expensive

Unexplainable Car Crash

Rustenburg – Saturday afternoon was met with an accident which has difficulty explaining, as the scene was filled with eye witnesses, but no one knew what happened, not even the drivers...

A taxi (Toyota Quantum) and a Toyota Corolla was involved in a car accident on the Nelson Mandela Drive, near the Job Shimankana Tabane Hospital. The Toyota Corolla allegedly hit the taxi on its passenger side which left the taxi on the side of the road.

Bustling traffic was at the order of the day, and even Metro Traffic Cops were at the side of the road. This accident took place on Saturday, 23 April 2011, at approximately 16h00. Five males and five females sustained only mild injuries and were transported to various medical institutions for treatment.

The driver of the car sustained suspected spinal injuries and was also transported to hospital after treatment on scene was received. The Police are currently investigating this case.
