Word of the week: Lexicon

Ok logophiles, eager book worms have been siphoning through dusty old scriptures, dodging vicious book mites and avoiding those deadly paper cuts to bring you a literary treasure. A word that could have been taken from King Solomon's private library: Lexicon.

The word 'lexicon' can be either a noun or verb. It generally refers to three things; firstly, lexicon can be a wordbook or dictionary, especially of Greek, Latin or Hebrew. Secondly, lexicon can also refer to the

vocabulary of a particular language, field, social class, person, etc. Lastly, lexicon also implies an inventory or record: unparalleled in the lexicon of human relations.

You with me on this one? No? Ok. So basically, think of the words you commonly use. You use different types of words when speaking to your friends than with your parents/ grand parents. Right? Right. So if you say something like, "Hey my china: send me a PDF, CMYK, no bleed to my Blackberry, LOL." This will typically not be understood by your grand parents...

Remember, if you want to share a word yourself, just drop me an email at news@platinumweekly.co.za and we will publish! Hear from you soon!
