

Polisbedrog tref 7 onderwysers

Minstens sewe onderwysers in die Noordwes Provinsie is die slagoffers van vermoedelik 'n kommissie bedrog skema met begrafnis polisse.

Blykbaar is Mnr. Charles Laastelê, hoof van die Vaaloewer Gekombineerde Skool in Bloemhof, Woensdag, 11 Mei 2011, na die distrikskantoor van onderwys in Vryburg om polisaftrekkings van sy en ander personeellede se salarisse te kanselleer.

"R405 is van my salaris afgetrek vir 'n begrafnispolis wat ek nie uitgeneem het nie. Ek het geen toestemming gegee daarvoor nie. Die departement het aanbeveel dat ons die aftrekkings kanselleer en die saak verder met die versekeringsmaatskappy opneem," het Laastelê gesê.

Vervalste dokumente is gevind in die saak – handtekening, telefoonnommers, posadresse en selfs die begunstigdes is vervals. Die vraag bly egter: Waar het die oortreder die slagoffers se salaris strokies in die hande gekry?

LANXESS Mining achieves 1.5 million FATALITY FREE shifts

Rustenburg – LANXESS Mining recently achieved 1.5 million fatality free shifts and has attributed this milestone to systems in place at the mine, a dedicated workforce, a leadership team that recognizes the importance of being exemplary and being part of a global company that prioritizes the safety of its employees worldwide.

The mine, which has an approximate workforce of 650, has been awarded a NOSA certificate for this attainment and will continue engaging employees in several safety programmes in order to regularly communicate the importance of safety in the workplace, particularly in a mining environment.

LANXESS Mining recently engaged NOSA to assist in the mine's auditing of ISO systems and the legal documents.

"The mine has OHSAS 18001 certification but a system alone cannot contribute towards an achievement of this nature. It is the dedication and commitment to safety practices in the workplace by employees that makes a difference. Further to that, the leadership within the

mine has to observe safety rules to the latter for employees to do the same," said Bruce Jones, Chief Operating Officer for LANXESS Mining. Jones said as a global company whose core business comprises the development, manufacture and sale of plastics, rubber, specialty chemicals and intermediates, LANXESS has always placed the safety of its employees as a top priority.

The company has put various measures in place at all its sites to ensure employees internalise safety practices in and outside the workplace.

He said LANXESS Mining recently signed a contract with DuPont Sustainable Solutions to enhance the level of safety awareness amongst the mine's employees and to maintain consistent safety communication within the mine.

"With this programme in place, we hope to generate further interest amongst our employees in order for them to view safety as an essential part of their daily lives. We hope this will also contribute towards maintaining the trend of fatality free shifts," concluded Jones.

Woman seriously HURT in Collision

Klerksdorp – A woman was seriously injured when her light motor vehicle collided with a bakkie on the Golden Way Road near Randal's Park in Klerksdorp late on Monday afternoon, 16 May 2011.

The cause of the accident remains unclear; however, the Police are currently investigating the collision.

Paramedics arrived at the scene only to find that both the light motor vehicle and the bakkie had skidded to a halt in the junction.

The driver of the car sustained serious head- and spinal trauma as a result of the frontal smash. She was treated and stabilised at the scene before she was transported via ambulance to a nearby hospital. The driver of the bakkie was uninjured in the incident.

Traffic on the busy arterial road was obstructed while emergency service personnel cleared the scene.
