## R12bn for N West roads

About R12-billion is needed to repair and upgrade roads in the North West over the next five years, the North West Business Forum (NWBF) said on Wednesday (25 May 2011). However, there would be an annual funding shortfall of about R1.8-billion, it also said.

"The focus is thus to address the most critical roads in need of repair which will cost R1.4-billion, which is additional to the existing budget over the next three years," the forum said in a statement. A solution has been identified by the Road Network Management System in the form of a loan application for critical projects. "In total, 32 projects have been

identified... there are 1622km of roads which need to be addressed and 18 200 full time jobs to be created," the forum further stated.

"There is no hiding from the fact that the situation in our province does look bleak... on a positive note however... this position has been recognised and much work and effort is currently being undertaken."

In the meantime, watch Robinson Regstreeks (KykNet) on Sunday, 29th May 2011, at 19h30 on the KykNet (Channel 111), for an update.
