## Hit & Run.

**Rustenburg** – On Sunday, the 22nd of May 2011, at approximately 19h15, as explained by eye witnesses, “a Golf came out of no-where, at a heck of a speed ...hit someone in the ditch next to the road and smashed into a tree...”

At this stage is it speculated that the driver was fleeing from someone, as he carried an unlicensed fire-arm in his vehicle. He was travelling from direction Swartruggens,

entered the Leherutse Road, and lost control over his Golf. He allegedly swerved off the road, “flew” through the ditch, hitting five people... even this did not stop the vehicle. His car only came to a standstill across the road, where he crashed into a tree.

The driver of the Golf did not sustain any injuries, but of the five individuals he hit, one was seriously injured including open tibia and fibula fractures and multiple chest injuries. The second person died on scene before medics could be reached.

SAPS are investigating this accident.

## Pedestrian Killed

**Rustenburg** – Two pedestrians were on their way home after collecting fire-wood when one of the two was hit by a Toyota Condor.

The Condor entered a slipstream from the N4, near Stay-Easy, direction Waterfall Mall when the accident occurred around 17h00.

According to eye witnesses on scene, the pedestrian

“walked right in front of the Condor” and there was not enough time for the Condor to swing out to prevent an accident. However, SAPS is still investigating this case. The pedestrian died prior to the arrival of paramedics. The second pedestrian sustained no injuries. The Condor included four occupants of which three sustained no injuries. The fourth occupant, sitting in the front passenger’s side, sustained serious face lacerations due to the impact on his window.
