Aurora Liquidators Fired

The decision of the Department of Justice on the morning of the 23rd of May to fire Enver Motala and Gavin Gainsford as liquidators of the Pamodzi Gold estate is a possible turning point in the Pamodzi and Aurora saga, trade union Solidarity said. The trade union is demanding that the current looters of the former Pamodzi mines in Springs and Orkney, Aurora Empowerment Systems, be fired as the managers of the mining asset.

This comes after Solidarity served a liquidation application amounting to R3.1 million on Aurora last Friday to force the mining company to pay outstanding salaries or to close its doors. Aurora has until 31 May to oppose the application. If Aurora does not oppose the application, it will be heard in the North Gauteng High Court on 7 June.

“Solidarity is pleased that Enver Motala, who regarded himself as the chief liquidator of the Pamodzi mines, has been removed as liquidator by the Department of Justice this morning,” Gideon du Plessis, Deputy General Secretary of Solidarity, said shortly after the Department’s announcement. Meanwhile, Du Plessis will once again address the portfolio committee on mining resources in Cape Town on Friday, 27 May regarding the crisis at the Aurora mines at Grootvlei and Orkney.

To apply, please submit a comprehensive CV, together with a certified copy of your highest qualification and quoting the relevant reference number, to the Human Resources Department, fax: 086 681 0546 or apply online at www.xstrata.com/jobs/careers

Closing date: 3 June 2011
 Only applications received via fax or online will be accepted.

The Boshhoek smelter complex, situated approximately 21km north-west of Rustenburg in the North West Province, forms part of the Xstrata-Merafe Chrome Venture. The following key opportunities are now available for career-minded individuals:

Administration Department

Assistant Financial Accountant

The successful candidate will assist the Accountant in the execution of his/her duties.

Responsibilities: He/she will be accountable for Time and Attendance functions, be responsible for all capital-related reporting and functions as well as take charge of fixed asset control. Sundry customer processing and control, cash flow requirement monitoring and General Ledger reconciliations will also be his/her responsibilities.

Requirements: A BCom degree or equivalent, 5 years’ experience as an Accountant and computer literacy (SAP, Microsoft package) will be the minimum requirements. We seek a dynamic personality who is able to supervise others yet work in a team, utilising excellent communication skills. The ability to work under pressure is important. (Ref. 12116)

Supervisor (Time)

This role is responsible for Time and Attendance-related functions.

Responsibilities: The successful candidate will assist Management, supervisors, contractors and employees with Time and Attendance control and approval as well as ensure that policies, procedures and time rules are being adhered to. He/she will also ensure that payroll queries are communicated to SSC and that employee-related documentation is forwarded and captured at SSC.

Requirements: Candidates must be in possession of a Grade 12, plus 3 years’ payroll or Time and Attendance experience and good knowledge of the Sustainable Development System. Our ideal person has excellent communication and supervisory skills and is able to work under pressure. Medical fitness is essential. (Ref. 12206)

Engineering Projects Department

Senior Maintenance Planner

The successful candidate will ensure that Sustainable Development management systems at Boshhoek Plant are recorded, maintained and updated in accordance with requirements.

Responsibilities: The role involves managing the Health, Safety, Environment and Community-related systems and projects in the Department, as well as the departmental manpower, work allocation, training needs and leave schedules. He/she will also manage the plant maintenance system in the Department to ensure equipment availability, control departmental working cost budgets and departmental stores within defined parameters, as well as ensure continuous improvement and implementation of control and monitoring systems. It will be important to maintain the plant operational status and ensure it is fully supported. Compliance with Xstrata’s Sustainable Development 17 Standards is also essential.

Requirements: We require a strong administrative mind who holds an N6 or National Engineering Diploma or qualification in Industrial Engineering, plus a minimum of 5 years’ previous experience in an engineering planning function. Computer literacy, with a SAP PM background, and report-writing skills are also needed. Our ideal person is a confident supervisor who can also interact well with others. Medical fitness is essential. (Ref. 12079)

Please note: Xstrata-Merafe Boshhoek is committed to operating sound Sustainable Development (SD) practices and strives towards leadership in these areas.

Applicants must take note that general sustainable development requirements and adherence to all sustainable development policies and procedures will be expected of them.

Xstrata-Merafe Boshhoek is an equal opportunity employer.

Selection procedure: Short-listed candidates will be expected to attend a panel interview, and appointment will be subject to reference checks.

In making the final selection, consideration will be given, but not limited, to achieving Xstrata-Merafe Resources’ Employment Equity objectives.
