SAPS NW: Facebook & Twitter?

What? Is technology growing so fast that even our South African Police Service is making use of Facebook and Twitter?
 name is Saps NW and you can follow us on Twitter on @SapsNw." I think it's time to update my status... Can't get left behind!

According to Brigadier Ngubane, Provincial Head of Corporate Communications, SAPS, "In pursuit for better service delivery to our valued clients, the South Africa Police Service Provincial Office of Corporate Communication North West Province is now on Facebook and Twitter. Our Facebook profile

Save Tomorrow: Today!
World Environment Day Celebrated!

Klerksdorp – Environmental awareness plays a significant role in encouraging and enhancing people's participation in activities aimed at conservation, protection and management of the environment. Moreover, it is essential for achieving sustainable development.

According to the South African Environment Outlook (2008), the condition of the South African environment is deteriorating. Increasing pollution and declining air quality are some of the few factors

harming people's health. Natural resources are being exploited in an unsustainable way, threatening the functioning of the ecosystem. The report further indicates that 80% of mining activities is a key driver within the North West Province and this result in various pressures on the environment, in which mining activities are responsible for pollution of environmental resources.

As a result, the Department of Economic Development, Environment and Conservation in partnership with SALGA, celebrated the World Environment Day in Klerksdorp, under the theme "Climate Change: Save, Tomorrow, Today". The event was attended by approximately 500 people from community business organisations, environmental clubs, government departments, and mining companies around KOSH areas. The participants were educated on issues around climate change and its impact towards our daily

lives, waste management and responsibilities for both communities and mining companies in terms of keeping environment clean and safe. Participants were encouraged to practice four R's which is recycle, re-use, and reduce and re-buy.

The World Environment Day event was preceded by a clean-up campaign which was held in the Jouberton area, Ext 2 and 10, in which 70-75 unemployed youth actively participated. The campaign came as a concern after the community has adopted the street corners as dumping areas.

The cleaning operation came as a platform to create awareness on illegal dumping and to emphasise cleanliness of the environment within the township surroundings. In contribution to the campaign, Buyisa e bag donated 300 T-shirts and caps, and Matlosana Local Municipality (Community Services) 150 Plastic bags, 40 hand gloves & masks and 1 front end loader & tipper truck.

Die Aartappel val nie te ver van die Boom af nie...

Die ATKV Centurion se Kultuurpret by die Willem Prinsloo Landboumuseum, oos van Pretoria, het inderdaad vir baie pret gesorg!

Baie van die besoekers aan die Landboumuseum, het nie net kom mampoerproe nie, maar ook aan die Kultuurpret kom deelneem. Die aartappelskil-, enlemoenskilkompetisie het vaardigheid met een aartappel en een lemoen geverg, maar die rissieset was gekenmerk deur vasbyt, fynkou, sluk en nagevolge...

Niki van den Berg, die huidige SA Aartappelskilkampioen (3.03m) en sy Ouma Drienie die naaskampioen (1,52m), het hul titels kom verdedig. Terselfdertyd het Ouma Drienie weer

haar kleinseun die stryd kom aansê. Beide afkomstig van Bethal, kon egter nie hul rekords verbeter nie. Niki het 'n skillengte van 2,66m gehaal en Ouma Drienie se skil was 1,32m. lank. Niki het ook, sonder mampoerproe vooraf en iets te drinke tussenin, die meeste rissies nl. 10 gebyt, fyn gekou en gesluk.

Fanie Pretorius van Pretoria, het ewe ontspanne en terwyl hy 'n selfoonoproep beantwoord, die lemoenskilkompetisie met 'n skillengte van 2,13m gewen. Op die foto wens ouma en kleinseun mekaar geluk.
