Senwes Spinners' 5th Year Celebration

Klerksdorp – Senwes and North West Cricket hosted their Senwes Spinners' 5th Year Gala Dinner on Tuesday, the 14th of June 2011, at the Senwes Headquarters in Klerksdorp to celebrate the 5 years existence of the Senwes Spinners Development Programme in support of youth cricket development in and around Klerksdorp.

The Senwes Spinners programme focuses on developing cricket in the rural communities of the North West province. The programme currently involves 10 farm schools, whom have participated in the Senwes Spinners Tournament which was held in Klerksdorp from the 25th-28th of March 2011. North West Cricket assists the schools by conducting coaching courses for the teachers and coaching clinics at the schools. Each school received cricket equipment and clothing for participating in the programme. Five years ago, most of these kids would never even have heard about the sport of cricket. An interesting discussion was held by a panel consisting of Jacques Faul (CEO NWC), Francois Strydom (MD Senwes), Max Jordaan (CSA Manager – Senior Cricket), and Davy Jacobs (Captain Chevrolet Warriors). "The Senwes Spinners programme touched me deeply, as it gives rural players

from all walks of life an opportunity to be exposed to cricket, it also helps to build the rural communities," said Jacobs.

The best player from the tournament is selected each year to receive a scholarship bursary as part of the Senwes Spinners High Performance programme. North West Cricket and Senwes contribute towards the scholarship bursaries.

Kgosi Senne and Neo Lichaba were the first two players to receive the scholarship bursaries, and then Tshepo Maano followed the previous year. Modise Matlaku was announced recently as the next player to receive the scholarship bursary. The four talented players received their Senwes Spinners jackets from by Francois Strydom (Senwes MD).

"The Senwes Spinners Development Project is more than just a social responsibility for Senwes, but also a platform for giving back to our rural communities and the cricket fraternity. The decision to involve North West Cricket was an easy one, as we decided that cricket had all the necessary development attributes that can develop the youth in the rural areas into future stars," said Francois Strydom (Senwes MD).

Tractor squashes man's head

Rustenburg – About 12km from Rustenburg, near the Olifansnekdam, a freak accident occurred on Thursday, the 15th of June.

On one of the gravel roads linking with the R24, a male farm worker, driver of a John Deer tractor, was found by fellow farm workers trapped underneath the tractor. They immediately contacted emergency personnel who hastened to the scene.

Upon arrival, they found that the victim had already passed away due to the severe head wounds obtained during the accident. No foul play is suspected; however, the Police are investigating the case. It seems as if one of the tractor's wheels made contact with cement blocks next to the road and tipped over as a result. It is important to note that the gravel road is in a very good condition – therefore the mystery around the tractor falling on its own driver is unexplainable.
