ARRIVE ALIVE

Accident on old Pretoria Road

...Continued from page 1

from the wreckage, but thanks to the immediate assistance of 'Car Towing', they were able to literally lift the one side of the truck, in order to free the car.

Thus enabling the Fire Department to use 'Jaws of Life' to free the family. The boy was stabilised on scene and rushed to the Peglerae Hospital. He sustained various injuries including a cardiac contusion, internal bleeding, multiple fractures, punctured lungs, broken ribs and his spleen had to be removed. He is currently in the ICU unit.

The Police have opened an investigation of culpable homicide.

Concurrently, the old Pretoria wasn't any safer when 3 vehicles were involved in an alleged high-speed accident earlier the evening (18h50).

Initial reports show that a Bantam bakkie was trying to overtake a Hyundai, but seriously misjudged his distance and almost slammed head-on into an oncoming Isuzu. He was able to avoid hitting it head-on by swerving back at the last moment; however, the Isuzu and Bantam skimmed each other which resulted in the Bantam losing control. He spun sideways and was T-boned from behind by the same Hyundai he overtook. SAPS are currently investigating this accident.

Both the occupants of the Bantam died due to the severity of injuries sustained. The Hyundai was written off and one of its occupants succumbed to her injuries whilst her husband sustained serious neck- and spinal injuries. Fortunately no one in the Isuzu bakkie was harmed during the accident. Our prayers go out to all the families of those lost on our roads.
