contact the investigating officer Sgt. MI Makgale of Ikageng Detective Services on the following numbers 018 299 7599 or 072 378 4535.

Baby survives Horror Crash

Rustenburg – An 18-month-old baby was one of the survivors of a horrifying head-on collision involving a BMW and a VW Golf, which claimed two lives. It occurred on the Sun City/ Majakaneng Road on Friday July 29 around 19h00.

While there were no witnesses to give accurate details of the events leading up to the accident, police believe both cars were travelling at a very high speed due to the engine of the BMW found literally “on the front seats”.

The two people, who died before the arrival of paramedics, were travelling in the BMW with the baby on the back-seat. The baby, whose identity is yet to be established, sustained a fractured arm and was taken to the Moses Kotane Hospital.

The two people in the VW Golf were lucky to survive, emerging with suspected spinal injuries. SAPS are still investigating the case.

Alcohol + Drugs = Accident

Rustenburg – A man driving a green VW Golf allegedly under the influence of alcohol is lucky to be alive after his car collided with a red Nissan Skyline on the Helen Joseph Bridge linking with the N4 highway on Saturday July 31, at around 22h10.

An eyewitness and her boyfriend were travelling from Bergsig Academy towards Safarituine [on the Helen Joseph Bridge] and according to them; the Skyline was driving bumper-to-bumper just behind them. They were afraid to be involved in an accident and therefore accelerated their speed a bit to avoid a collision.

Seconds later the Golf emerged from the opposite direction [Safarituine], allegedly at a very high speed. The driver lost control of the vehicle, spun uncontrollably and missed the first car carrying the eyewitnesses by a breath, before colliding with the Skyline.

The scene soon became very chaotic. The driver of the Nissan Skyline, who the witnesses said appeared to be very aggressive, was taken to the Peglerae Hospital for further treatment after paramedics managed to calm him down. Police also recovered an unspecified amount of marijuana in his Nissan Skyline. There were no passengers in the vehicle.

The driver of the Golf was treated by paramedics on the scene for possible spinal injuries and was taken to the Job Shimankana Tabane Hospital for observation. Suspected alcohol abuse is involved as alcohol cups fell out of the vehicle when emergency personnel retrieved the driver.

SAPS are also investigating a case of reckless and negligent driving.

‘Donkeys Caused Accident’ – Driver

Rustenburg – A man sustained serious spinal injuries after he allegedly drove his bakkie, a Toyota Hilux, into a sign pole near the first off-ramp on the new Sun City road on Sunday July 31 at around 19h 15. While the driver says his vehicle hit the pole after his car veered of the tarmac as he tried to avoid two donkeys in dark conditions, South African Police Services (SAPS) are yet to get to the bottom-line of the story.

The tall driver sustained serious spinal injuries and his height caused emergency services personnel taking a while before eventually managing to free him without having to cut the car. He also sustained possible whip-lash. After being treated on the scene, the man was taken to hospital for further care. Police have ruled out the influence of alcohol.

When Quads & Tar Collide...

Rustenburg – A speeding quad rider on the R510 Thabazimbi Road sustained serious head injuries after he overturned and crashed into the tarred road.

The accident occurred about 20km from Rustenburg on Saturday July 30 at around 17h15. According to witnesses, the rider had to be taken to Peglerae Hospital after paramedics placed him on a ventilator upon arriving at the scene.

The driver sustained serious head injuries and possible internal bleeding. An investigation by SAPS, to establish more details, is underway.
