# Mecca Reinforcing reassures clients

**Rustenburg** – While a major breakdown of a blast furnace at Arcelor Mittal (AMSA) has caused a stoppage in the production of liquid steel at the company's Newcastle plant, Mecca Reinforcing says it has adequate stocks to satisfy the needs of their customers in the Greater Rustenburg area. This is due to an initiative that was taken by the company to purchase large amounts of steel before the breakdown incident.

breakdown is going to affect our deliveries over the next few months. "Mecca Reinforcing is currently exploring various other sources of raw materials so as to ensure that we remain competitive and keep the interruption of our supply chains down to a bare minimum," said Mr. Jonker. "As soon as we have any more certainty from AMSA, or alternatives regarding supply sources, we will be communicating this to you," he added.

In a statement to the public, Mecca Reinforcing Managing Director, Mr. C Jonker, said the company will explore various avenues to remain competitive and to minimize the effects of the breakdown of AMSA, who are one of their major suppliers. "AMSA have traditionally been one of Mecca Reinforcing (Pty) Ltd's main suppliers of reinforcing steel and although we have significant stocks on hand, this

## NOTICE OF A SCOPING & ENVIRONMENTAL IMPACT ASSESSMENT PUBLIC MEETING

Notice is given in terms of the National Environmental Management Act (Act 107 of 1998) (Including Government Notices GN R. 543, GN R. 545), with the intent to discuss and carry out the following activities:

- Communicate the Environmental Legal Authorisation Requirements relevant to the project;
- Present the Current Status of the Project to all Interested & Affected Parties;
- Discuss the Draft Environmental Impact Assessment Report & Draft Environmental Management Plan for the EIA;
- Discuss the way forward in the EIA Process

The proposed project includes application for authorisation for the generation of electricity by means of the recovery and re-use of waste heat generated by the Ferrochrome Furnaces at the Xstrata Alloys Wonderkop Operation.

**Location:** The BioTherm Energy Waste Heat to Power Project will be located at Xstrata Alloys Wonderkop Operation which situated on portions of the farms Brakspruit 299 JQ and Spruitfontein 341 JQ and lies on the D108 road between Marikana and Photsaneng.

**Project Applicant:** BioTherm Energy (Pty) Ltd  
**Consultant:** Riaan Fourie (Cand.Sci.Nat)  
JMA Consulting (Pty) Ltd  
**Tel:** (013) 665 1788  
**Fax:** (013) 665 2364  
**Email:** r.fourie@jmaconsult.co.za  
**Postal:** P.O. Box 883, Delmas, 2210

**DEA EIA Reference:** 12/12/20/2216

**Date of Publication:** 19 August 2011

**Public Participation:** In accordance with EIA regulations you are hereby then cordially invited to attend the Public Meeting scheduled for:

**14:00 on the 1st of September 2011, at Xstrata Alloys Wonderkop Operation Main Admin Lapa**

It is important to note that a Scoping & Environmental Impact Assessment Process, as prescribed by the National Environmental Management Act (Act 107 of 1998), is now being conducted during which all Interested and Affected Parties need to be informed and consulted with regards to the potential environmental impacts of this project. The Scoping & Environmental Impact Assessment application has been submitted to the Department of Environmental Affairs (DEA) Head Office in Pretoria and was accepted on the 14th of April 2011. The Scoping Report for this project was approved by DEA on the 22nd of July 2011.

In order to ensure that you are identified and registered as an Interested and/or Affected Party please submit your name, contact information and interest in the matter, in writing, to the contact person given above. You are also cordially invited to attend the Interested & Affected Party Meeting scheduled for 14:00 on the 1st of September 2011 at the Xstrata Alloys Wonderkop Operation Main Admin Lapa, where further registration as I&AP can be done.

If any further information is required please do not hesitate to contact us.
