Samancor Chrome is a progressive, innovative company with an enviable reputation for being an employer of choice. We have a clearly defined commitment to provide growth and development opportunities and these are evident at our two mines, three production plants and our corporate head office.

www.samancorcr.com

The following opportunity has become available at Western Chrome Mines in the North West Province.

Mineral Resources Strata Control Officer

The incumbent will perform an observing, quality control and reporting function, together with routine functions associated with short-term mine planning. Areas of focus include ensuring SHEQ compliance, utilising the information management system, ensuring customer satisfaction, managing geological features, issuing rock mechanics support recommendations as well as planning all necessary mining procedures. Conducting support audits, performing routine risk assessments, monitoring the implementation of mine standards, investigating fall of ground occurrences, conducting rock quality designation analysis and managing training will also be required.

The ideal candidate will hold a Grade 12/N3 qualification coupled with a Chamber of Mines Strata Control Certificate and 3 years' relevant experience. SANIRE membership would be preferable.

In making the final selection, consideration will be given to achieving the Samancor Chrome's employment equity and the mining charter objectives.

All candidates may submit their CV, quoting the Ref. No. SAM15444 by email to wcmhrcv@samancorcr.com or by fax to (014) 574-6131. Closing date: **9 September 2011.**

If you have not been contacted within 3 weeks after the closing date, please assume that your application has been unsuccessful.
