

SPORT

We dare you! Come out and PLAY!!!

Rustenburg – SkyDive Rustenburg, an Angel SkyDive Operation, spent a cracker of a weekend with lots of progression and a number of highlights – all with great friends in perfect weather in the relaxed SkyDive Rustenburg vibe.

SkyDive Rustenburg Chairman Herman Grobler had the privilege of presenting his original skydiving instructor with a certificate! Eddie Techman – Chief Instructor for Swakopmund Skydiving Club, organiser of the legendary Swakopmund Desert Boogies, and veteran of the skies with over 15 000 skydives to his name – was Herman's instructor when he started skydiving back in 1984. Eddie came through to spend some time with us and helped out at the DZ this past weekend.

A few other successes:

- Warren Pistorius graduated from the Accelerated FreeFall Program (AFF).

- Munyaka Makuyana (Botswana) completed the Intermediary Skills Program (ISPs), wrote his A-Licence test, and applied for his A-Licence.

- Garai Makaya (Botswana) completed all of the requirements for his B-Licence, wrote his B-Licence test, and applied for his B-Licence.

- Karen Fourie was awarded her D-Licence – D-900 – That's Awesome!

- Jackie Schoeman, working towards his Rigging Rating, came up from Skydive Central (Bloem) and inspected and packed 9 reserve parachutes under the supervision of SkyDive Rustenburg Equipment Officer Peter Hansen.

- Jason Collins jumped his own parachute system for the first time, and revealed his latest tattoo featuring the words "12 000 ft and Falling". Now that's commitment!

- A number of Tandem Introductory Skydives was facilitated and we had the pleasure of meeting with a

couple of families that came to "check us out".

In case you have forgotten why you started skydiving in the first place, learn to have some fun skydiving! Go do something different, go somewhere different, jump with other people. Attend safety seminars in and outside of skydiving. Attend the PRO Rating Course (which we are going to offer countrywide) – I assure you that skills learnt on these types of courses will better equip you to deal with emergencies in a DZ environment as well. O, and for those brave enough... Give me a call & join us!!!!

Blue Skies and Great Sky Dives
