Will Win a Grand Price of **R2,500.00**

## Police brace for festive season Read This: VERY Interesting...

Rustenburg – Police in the North West have once again geared themselves for the approaching festive season. It is already evident that police are in-

tensifying their operations to clamp down on criminals and to maintain the 'Zero Tolerance' approach. Operational plans are already compiled and were set in place from the beginning of September, and will continue until the end of January 2012.

To date, more than one-thousand-two-hundred (1200) persons have already been arrested for various crimes.

Just over 250 were arrested for their alleged involvement in serious crimes such as murder, attempted murder, rape, car hijacking, etc. Those arrested for less serious crimes include 87 undocumented persons, 25 arrested for common robbery and 26 for possession of suspected stolen property. Over 15 000 fines were also issued, apart from the 461 traffic fines issued by different Traffic Departments.

During the operation, various stolen goods including 15 vehicles were seized. Small quantities of drugs as well as over 2.242.658 litres of liquor were also seized during the raids. Of great significance is the fact that already 13 firearms, 118 rounds of ammunition and 3 magazines were confiscated.

During the operation that was conducted on Friday, 14 October 2011 at the North West Capital, Mahikeng, roadblocks were held at numerous roads that are leading in and out of town. Twenty-two traffic fines were issued to drivers for different traffic offences.

Roadblocks will also be conducted throughout the Province, with the main aim of promoting road safety, preventing vehicle hijackings, to detect the transportation of stolen goods and stock, as well as focusing on the non-compliance with regard to the Road Traffic Act, especially driving under the influence of liquor. Intensive foot- and vehicle patrols will be conducted in high density areas such as business areas, taxi ranks and alcohol consumption places, where large numbers of people will be present.

These patrols will mainly focus on the prevention of robberies.

While the holiday season is fast approaching, members of the public are not only requested to make necessary arrangements for the protection of their property when leaving for the holiday, but also to ensure that they arrive safely at their destination.

Provincial Commissioner of the North West Province, Lieutenant General Zukiswa Mbombo said, "We need the continuous support of, and interaction with the community in order to maintain our Zero Tolerance approach, and also to build partnerships."
