The benefits of a Trust Fund

Rustenburg – Fairheads Benefit Services has recently conducted their annual countrywide road-show aimed at educating parents and/or guardians of the benefits of setting up a trust fund for their children. In Rustenburg the road-show was hosted at NG Church Hall (Fatima Bhayat Street) on 2 November 2011.

“We have conducted presentations to various people throughout South Africa since September this year and have been informing them about the benefits of setting up trusts. During the presentations we educate the public in question-and-answer scenarios. We target people who do not understand the concept of being a trust holder and what it entails,” said Nombi Sekaleli, a client-liaison officer with Fairheads Benefit Services. She further added, “These trusts benefit your children directly. It also caters for widows and orphans, when their care takers/ parents have passed on. When a person dies, and his/her money is not in a trust fund, it may end up not benefiting

the children,” she added. Furthermore, the beneficiary fund does not belong to any company. It is controlled and managed by a board of trustees, one of whom must be an independent trustee. For more information, call 021 410 7800 or visit their website on www.fairheads.com.

WARNING! Vehicle Theft Increasing in NW

NW – The North West Police Services herewith wish to warn the community of the escalating number of motor vehicle theft, (2 November 2011). An estimated 1257 vehicle theft dockets have been opened since April 2011. Latest reports include that a shocking 17 cars has been stolen in Potchefstroom alone during October 2011. The police want to send out a plea message to all motorists to make sure that their cars are parked in safe areas. Motorists must always ensure that their

cars are locked at all times and that there are no valuable visual, appealing items in the car – not even in the boot. According to the SAPS, thieves target car parks. Therefore always park your car in attended parking lots – especially when parking at night. An additional escalating problem relates around giving lifts to strangers next to the road. This is extremely dangerous. **NEVER EVER** leave you keys in the ignition!!!
