### Movember... "Challenge Accepted!"

Movember is changing the Face of Men's Health around the globe. So... Mo Bro's, start the month with a clean-shaven face and for the rest of November (Movember), groom, trim and wax your way into the annals of fine moustachery.

Movember is an initiative that seeks out sponsorship for their Mo-growing efforts, with the support of their Mo Sistas and at the end of the month, celebrates by hosting their own Movember party or attend one of Movember's Gala Partés held in Cape Town and Johannesburg.

All for a good cause of course. Movember strives to highlight the importance of Men's Health, especially with regards to prostate and testicular cancers. All funds raised in South Africa go directly to CANSA's Men's Health Programmes for prostate and testicular cancers. You can read all about it on [www.movember.com](http://www.movember.com)

If you would like any further information regarding the Movember happenings in South Africa or have any news or Mo

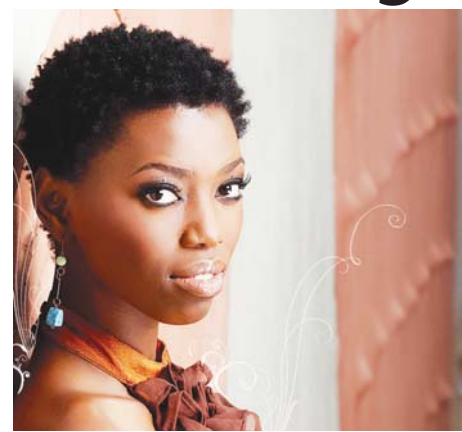

updates to share, please email [info.za@movember.com](mailto:info.za@movember.com) - alternately, contact CANSA's toll free line at 0800 22 66 22 or [info@cansa.org.za](mailto:info@cansa.org.za).

### Lira @ Sun City

Rustenburg/ Sun City - Ahead of her exciting performance Saturday night at Sun City, South African super-star LIRA met with learners from Lebone College II, Rustenburg, to give a 45 minute motivational talk at Lebone College II on the 27th October, 2011

Fresh from her hugely successful global tour - Lira returned to the Southern African Stage with 'The Captured Tour', in association with Nokia. From September 30th to October 29th at top venues across South Africa, Lira brought her soulful and inspiring music to an audience of thousands of her devoted fans.

### Women in One Purpose

Rustenburg/ Meriting - Women in One Purpose (WIOp) consists of women in and around Rustenburg with one united goal; to gather monthly to Pray and share the Word of God.

Saturday (October 29) marked their 2nd anniversary celebrated at the Meriting Hall. The WIOp mothers were blessed to have the following pastors among them to share in this festive occasion; Pastor Belinda, Mrs Mphomane, Pastor Molokodi, Pastor Maloma, Pastor Booi, Pastor Seimelo, Pastor Thage, Pastor Tafta, Pastor Mamsy, as well as Pastor Lesedi.

Many thanks go to the Almighty God who made the celebration a success and may the Lord bless the sponsors including Mr. Kinni Rangaka of Foro Spar, Mr. Victor Makona of Rustenburg Local Municipality, as well as Mathuso Worshipers and Sthando Gospel Group.

### ORBIT FET College: NEW programmes for 2012

In preparation for the 2012 academic year and beyond, ORBIT FET College has introduced new study and training programmes. Like all programmes currently offered at ORBIT College, the new programmes fall under one of the two main categories, namely Vocational- and Occupational Programmes.

Students who enrol for Vocational Programmes are channelled into a particular field of study that eventually leads them to a specific vocation. In this category the National Certificate Vocational [NC(V)] Programmes are offered. Ranging from level 2 to 4 on the National Qualifications Framework (NQF), the NC(V) programmes last a period of three years (one year per level). A student would take seven subjects each year in his/her chosen career. Three of the subjects are fundamental subjects, i.e. English First Additional Language, Life Orientation and Mathematics or Mathematical Literacy. The rest of the package comprises the vocational subjects that a student would follow in pursuit of the career in the chosen field.

Transport and Logistics is a new NC(V) programme that has been added to the Programme Qualifications Mix of ORBIT College. This programme will be offered at Mankwe Campus. The Engineering & Related Design NC(V) programme has been extended to include the Automotive Repair and Maintenance option in addition to Fitting and Turning and Fabrication.

The NC(V) Programmes combine theory (knowledge) and practical experience to create an environment where thousands

of post-school candidates can access relevant skills education and training in specific fields.

Also on offer within the vocational category, are the Report 191 NATED N4-N6 programmes (Alternative Post School programmes). These programmes ultimately lead to a National Diploma. On completion of an 18 month theoretical component, students are required to gain 2000 hours of work experience in the relevant field of study before a Diploma will be issued.

Tourism N4-N6 and Hospitality and Catering Services N4-N6 will be offered at Mankwe Campus from January 2012. In addition to these new additions, qualifying prospective students can also enrol for Business Management, HR Management, Financial Management and Management Assistant at any of the ORBIT College campuses.

N1-N3 Engineering Programmes are also offered to both Employer students and/or Private or non-employer students who wish to study towards an apprenticeship to become an artisan. These programmes are offered at all three campuses.

The application process is currently open to new students wishing to enrol at ORBIT FET College.

**For more information about the admission and placement requirements and procedures, programme costs and/or additional information you may require, contact the Student Support officers at the different campuses or visit the College website: [www.orbitcollege.co.za](http://www.orbitcollege.co.za).**

### Human Capability

It is in my opinion that the most interesting phase or time of your life is when you fall down... When you temporarily get stuck with problems, and in consequence how you stand up and recuperate after experiencing a set of challenges.

This is the time where you explore your capabilities and hidden talents. According to philosopher Soren Kierkegaard, every cloud has a silver lining, meaning that each challenge presents an opportunity of growth. He proposed that all organisms (including humans) have the tendency to strive for the top, to reach the ultimate level of development... to reach your ultimate potential regardless of the setbacks you might be facing. "Trouble triggers innovation in every organism"
