Things-To-Do in an Elevator

- When there's only 1 other person in the elevator, tap them on the shoulder and then pretend it wasn't you.
- Push the buttons and pretend they give you a shock. Smile, and go back for more.
- Call the Psychic Hotline from your cell phone and ask if they know what floor your on.
- Bring a camera and take pictures of everyone in the elevator.
- Move your desk into the elevator and whenever anyone gets on; ask if they have an appointment.
- Lay down the twister mat and ask people if they would like to play.
- Pretend you are a flight attendant and review emergency procedures and exits with the passengers.
- When the doors close, announce to the

- others, "It's okay, don't panic, they open again!"
- Grimace painfully while smacking your forehead and muttering, "Shut up, all of you, just shut up!"
- Crack open your briefcase or purse, and while peering inside, ask, "Got enough air in there?"
- Stand silently and motionless in the corner, facing the wall, without getting off.
- Wear a puppet on your hand and use it to talk to the other passengers.
- Listen to the elevator walls with your stethoscope.
- Draw a little square on the floor with chalk and announce to the other passengers, "This is MY personal space!"

Road Safety Campaign

Bojanala Platinum District Municipality hosted a very successful event at Moretele local Municipality at Dertig Taxi Rank. It was hosted in collaboration with Moretele Local Municipality and other stakeholders such as Department of Human Settlement, Safety and Liaison, Department of Education and Makapanstad taxi association amongst others.

The Road Safety campaign was initially called Mpone Road Safety which specifically targeted school kids. This financial year it was extended to cover all members of the community specifically because road death's have reached abnormal levels. Local economies and social development is being affected.

It was indicated by the Manager of Transport Planning and Community Safety at the Bojanala Platinum District Municipality, Mr Kagiso Morapedi that since the United Nations declared 2011-2020 a Decade of Action for Road Safety, the municipality had to participate on raising awareness targeted at motorists, pedestrians and all other road users on issues around road safety. The 18th of November 2011, was also declared by the Minister of Transport, Honourable Sibusiso Ndebele as the National Day of Prayer for Road Safety. That day formed part of commemorations for the World Day of

Remembrance for Road Traffic Victims on 20 November and also to mourn the 1,3 million people who lost their lives and the millions of others who were injured on the world's roads this year. The 2011 theme as declared by Minister is as follows "From Global Remembrance to Global Action across the Decade" Let's make 2011-2020 a decade to remember!

A speaker for the Mayoral Committee, responsible for Community Development Services at the District Municipality asked the community to bear in mind the following while driving during the festive season:

- To communicate to other road users any hazardous conditions along the road you are using;
- Adherence to the prescribed speed limit;
- All occupants of a vehicle must wear their seatbelts;
- Drivers and vehicles must be licensed;
- Vehicle roadworthiness must be up to standard;
- Don't use cell phones while driving;
- To take a rest stop after every two hours driving;
- To promote visibility amongst road users; and lastly
- To co-operate with law enforcement officials.

Bojanala Platinum District Municipality

Cllr. N Lebotse, MMC for Community Development Services

Ladies and Gentlemen, we cannot ignore the statistics that revealed the following heart breaking figures:

- Africa has the highest road death rate per population in the world;
- Africa's road deaths are currently over 200 000 a year and are predicted to rise by at least 80% by 2020;
- By 2015, road accidents will be the leading killer of children aged 5-15 in Africa, even surpassing malaria and HIV/Aids;
- Road accidents are estimated to cost African countries between 1-3% of their Gross National Product; and
- Fourty percent of the victims from the estimated 10 thousand roads accidents that take place in South Africa every year, are vulnerable road users such as pedestrians, cyclists and those using motorized two or three wheelers.
