Warning: Banking Scams

The Police have issued out a strong warning to the public to be aware of new banking scams targeting internet bankers – especially in the North West.

"You will receive a SMS from a number similar to the one that you get bank notifications from. The SMS will indicate a problem on your account and a 'consultant' will contact you," Captain Adele Myburgh said. When the "consultant" phone, they would confirm personal details such as account numbers and then ask what kind of phone the person was using.

"The fraudsters will then contact your cell phone provider and perform a SIM (subscriber identity module) swap."

The fraudster, using the old SIM card, would then be able to receive one-time pin numbers and other random verification numbers, sent by banks to their customers, and access their accounts. Myburgh said the new scheme was being investigated. "By the time you realise that your cell number isn't working, your money will be out of your account."

Another way that the fraudsters operate is through sending fake cell phone messages/ emails, making the customer to believe they are from ABSA.

The FAKE messages reads: "Dear ABSA Customer, our customers are very valuable to us at ABSA Bank and we always thrive to provide the best possible customer service. As part of our commitment to you, our security department will be carrying out an upgrade to our system server from 5am until 8pm tomorrow morning. The aforementioned service will provide upgrades that are necessary to protect your account from security breaches. Please follow the link below to integrate your account into our new system. Keep in mind that failure to register on our new server will result in the suspension of your account."

Better safe than sorry – ANYTHING out of the ordinary, contact your bank directly to confirm any details. Remember: No bank will EVER ask to confirm your details.
