## KIDS! Make a difference through your art

**Rustenburg** – Calling all grade 6 to 10 learners! It's time to put on your thinking caps and grab your favourite paint brush.

The environment and your community need you. It's time to change people's minds, appeal to their hearts and ignite the desire to act for the greater good.

Create a poster using paints or pencils or a video clip using your own puppets, no longer than five minutes, in which you show how oil and water differ. Most importantly... how we can harness, control and recycle oil to prevent environmental destruction on South African water catchments and our marine life. This competition closes on African Penguin Awareness Day, 13 October, and prizes include 20 limited edition 'oil recycling rocks' jackets and a 200-oil collection with which you can make a continued change in your community.

Be sure to submit your project, along with your name, age and school to [cathy@wessa.co.za](mailto:cathy@wessa.co.za). Up to three scholars may work together. If you (or you teacher) have any questions, please email Cathy.
