

Mooinooi murders state witness dies in motorcycle accident

Mooinooi/ Tzaneen – According to police spokesperson colonel Moatshe Ngoepe, state witness Wilhelm Loubser was traveling along the Politsi Deepark public road outside Tzaneen on 3 November when he lost control of his motorcycle and collided with a barrier. Wilhelm died at the scene of the accident and a case of culpable homicide is being investigated.

This comes after *Carte Blanche* reported on 9 September how accused Koos Strydom ordered hits on state witnesses from prison. Wilhelm Loubser was one of the state witnesses in the gruesome Mooinooi murder case and has been under witness protection since the brutal murders of Anisha and Joey van Niekerk in December 2017.

The murdered couple, Joey van Niekerk, 32, and Anisha van Niekerk, 30, went missing on 10 December 2017 after leaving their home in Mooinooi to make arrangements for Joey's father's funeral. They were kidnapped, raped and killed, their bodies soaked in acid and burned beyond recognition. The pain and trauma left by Strydom's alleged murder spree is taking its toll on the families of Joey and Anisha.

Joey and Anisha van Niekerk.

Successful simulated emergency exercise

Rustenburg – The N4 Road Incident Management System (RIMS) committee of North West and Bojanala facilitated a simulated emergency exercise on Tuesday 6 November on the Bakwena N4 route at the Mooinooi interchange.

This Trans Kalahari Corridor exercise included stakeholders Imperial Logistics, Basella Maintenance, Netcare 911, ER24, Lonmin Mines, North West Traffic Department, SAPS, Madibeng/ Rustenburg Fire and Emergency and North West Pathology/ Forensic services.

The simulation formed part of the mandate to test the capabilities of the emergency

services on the national road network, which ensures that incidents are attended to and managed in a quick, efficient manner.

The simulation made use of a 'crash' involving a tanker carrying sulphuric acid and a class 1 vehicle. There were four 'injured' patients and one 'fatality'. The scene was timeously attended by all relevant emergency authorities and treated as though it was a 'live' crash site.

Liam Clarke, project manager at Bakwena, said the simulation exercise is key to achieving Bakwena's vision of zero fatalities along the N1N4 route.

The 'accident' scene.
