

## BirdLife Rustenburg

**Rustenburg** – Poaching is a serious threat to rhino populations all over Southern Africa. Pilanesberg National Park has established a stronghold for both the black and white rhinoceros. Steve Dell works for the park and currently heads the Rhino Protection Unit. At this month's BirdLife Rustenburg meeting, Steve will elaborate on the park's rhino situation, wildlife as well as fauna and flora. The Pilanesberg National Park is a jewel on our doorstep! The meeting will take place on Monday 18 November at the Methodist Church on the corner of Brink and Schuurman Streets and commences at 19:00. A

charge of R20 from non-members is payable. On Saturday 30 November, BirdLife Rustenburg will enter as many teams possible to take part in the national Birding Big Day. This is a fun day where people from all over Southern Africa form teams of up to four people and record every bird seen and heard in a 24-hour period within a 50km radius. This information collected will be sent to BirdLife South Africa and is of vital importance to the conservation of birds in Southern Africa. For more information, contact BirdLife Rustenburg chairperson Shaun McGillewie on 083 702 1462.
