For 39 years he was happily married to Indira Kissoon and together they had two sons, Ruvaaj and Vishaad. BARKING UP THE WRONG TREE

SA - Under a law that came into effect in South Africa about a decade ago, owners of dogs can be seriously fined in their pet's barking becomes a nuisance.

The application of this law – which according to reports can be enforced with fines of between R200 to R20,000 - is considered whenever neighbours complain of a dog that barks continuously for more than six minutes. Your neighbours are certainly entitled to enjoy a quiet night.

However, those who came up with this legislation may be barking up the wrong tree. What about the noise we sometimes have to endure from our neighbours who have the habit of partying through the night let alone six minutes?

What message are we sending out, choosing who are allowed to make noise and who not? The law regarding barking dogs must be revisited as soon as possible People can be much more of a nuisance than our adorable pets!

SA - I tried to renew my driver's licence in April 2018.

Guess what?!? My licence was declined due to my fingerprints not matching those on record in the database at the Department of Home Affairs (DOHA).

After googling the problem, I learned that I was one of more than 300,000 applicants whose fingerprints were swapped around in the database by the BEE company doing the card renewals, out of spitefulness, due to their contract not being renewed. This resulted that I'm now sitting with someone else's prints against my identity in the database of the DOHA.

After many frustrating hours of negotiation, I eventually received my new driver's licence card more than a year later, this time marked "NO PRINT" - where my fingerprint was supposed to be.

This did not bother me much at the time; however, I have found subsequently that I'm now unable to open a new bank account, since they all refer back to the database of the DOHA for a match before they will open the account.

I then made an affidavit at the local SAPS office. They looked at me as if I was mentally challenged, and again took my prints to check after I had paid a fee. After about three months, they informed me that my prints were "clean",

without matching any known criminal event. Still, they did nothing to correct the wrong prints in the database of the DOHA.

I have now given up... **Faulty Fingerprints**

Used masks, the new 'used condom' [Letter to the editor]

For years we have all been completely crossed out by used condoms littering street sidewalks, public spaces and parks. It was a disgusting, disease-ridden 'normal' that we all just got used to.

As of late, I have noticed a new trend - the used condoms have made way for used masks. It is a bit alarming to see so many masks lying around. But just like many other unhealthy and unholy habits, this also seem to have become part of our new normal... how gross!

For goodness' sake people, please don't get rid of your worn-out mask in such a unhygienic manner. It can spread Covid-19. Remember to always wear your mask, be wise and sanitise.

MALLS URGED TO ENSURE SOCIAL DISTANCING

Boitekong/ Rustenburg - Social distancing and strict compliance with all Covid-19 protocols by those visiting shopping malls, are essential in the fight to curb the spread of the pandemic.

The MEC expressed his disappointment with the high number of people who were inside the mall during his visit. Lehari assisted with the sanitisation of pensioners who

SEXTING AND SEXTORTION

Sexting?

In a press release by Mike Bolhuis, specialist investigator, it is averaged that 17% of people interviewed said that they had shared a nude or sexual photo of themselves.

Sexts never go away

Once a photo is sent, nude or not, it's out there! Once you have pressed the "send" button, it's out of your control.

Studies show that while 17% of sexters share the messages they receive with others, 55% of those share them with more than one person. People and even predators have learned how to copy and save images before apps such as Snapchat, delete them.

Is sexting illegal in South Africa? YES!

Sexting is a criminal offense for under 18s in South Africa.

The law does not make any exception for young people creating, possessing or sharing such material between themselves. When children engage in sexting, they create an indecent image of a person under the age 18 (even if it is an image of themselves), which is against the law.

Distributing such an image via any form of text/social media is also Mike Bolhuis, illegal. Sending a naked selfie can be a criminal offense.

What are the apps mostly used?

- WhatsApp.
- · Snapchat.

Tips for dealing with threats of being blackmailed or "sextorted"

- Do not delete any of the messages received.
- Take screenshots of the threats from the scammer, as these can possibly be used as evidence.
- Talk to someone you can trust.
- Contact a specialist in this type of crime.
- Discontinue all communication with the scammer.
- Report the extortionist to the messaging or social platform, on which they are contacting you.
- Sextortion is traumatic for any person at any age.
- Contact a trusted counsellor to help you or your child deal with this ordeal.

BEING A GOOD NEIGHBOUR, BUILDING A BETTER FUTURE

THE MARIKANA RENEWAL PROCESS LAUNCHED

On 16 April 2021, Sibanye-Stillwater officially launched its Marikana Renewal Process, marking the start of an inclusive engagement process with all stakeholders that were affected by the Marikana tragedy in 2012.

His Grace, the Archbishop of the Anglican church, Thabo Makgoba, is the patron of the Marikana renewal programme. At the launch, he was joined by Sibanye-Stillwater CEO, Neal Froneman in calling on all stakeholders to participate in the process of healing, honouring the legacy of Marikana, and contributing to a renewed Marikana.

The engagement process is being led by Reimagine SA, an independent social facilitator, to ensure that the pillars of renewal Honour; Engage; Create are realised. The programme will involve families of the victims, non-governmental organisations, unions, religious and traditional leaders and all communities within the greater Marikana footprint.

Some of the key deliverables include finalising the construction and handover of houses for the widows and their children; educational support; support for Bapo Ba Mogale; livelihood programmes and the improvement of the social environment in partnership with government and local communities.

Families in the Eastern Cape and Lesotho attending the

The widows and some family members participated in

This event marked the beginning of a multi-stakeholder and collaborative process of renewal in Marikana. An opportunity to honour the legacy and engage with all stakeholders as we begin the process of co-creating a new reality for Marikana.

Aisha Navy Fundi, widow of the Marikana Tragedy

"Personally, I want people to see Marikana differently in the future, at the end of the day mining has a life and when the mining life ends Marikana is still a community, we want to

change the perception of the people and communities, when they see Marikana they must see Marikana as a rebirthed Marikana, they must see it as a positive and draw the positive out of Marikana."

His Grace the Anglican Archbishop of Cape Town, Thabo Makgoba

"We can remember the past but now we have to build the future. As we approach the tenth anniversary of the Marikana tragedy next year,

we have to offer a new reality which reimagines the future of Marikana. A community that is united, has found healing and is working at restoring itself, and gearing itself up for greater heights."

Neal Froneman Chief Executive Officer Sibanye-Stillwater

"We are part of a community and partners in the creation of a new future. To be able to achieve this we need to listen, as well as speak. We need

to collaborate and not impose, and we need to forge a mutually beneficial way forward, knowing that as a company, we are about one role player in the community in which we live and work."

HONOUR ENGAGE CREATE

We recognise that the pain of the families as a result of that tragedy will never be fully overcome, unless we foster a process of healing. We will engage with and support the affected families through this process, which is at the heart of renewal.

We will engage with all stakeholders transparently to ensure that this doesn't happen again.

At the heart of our intent is to leave a legacy beyond mining, by leveraging regional partnerships and working with all stakeholders to co-design and implement social upliftment programmes that will deliver meaningful benefits that will outlast the life of our operations.

ERADICATING HUNGER IN COMMUNITIES

Since November 2020, the company has engaged religious leaders around the Marikana and Rustenburg operations, to collaborate on a backyard garden project on the back of the food security challenges posed by COVID-19.

The pilot project was initiated in the Modderspruit, Majakeneng and Tlapa villages. 75 churches have been mobilised and 152 community members trained. In Marikana and Tlapa village in Rustenburg, 50 backyard gardens are fully operational in the pilot areas and the programme will be extended to other communities.

MARIKANA ROAD SAFETY IN ACTION

The North-West department of Public Safety and Transport in partnership with Sibanye-Stillwater made sure that learners returning to school and workers reporting back to work after the holiday season were COVID-19 safe on the road at all times.

COVID-19 safety packs that included masks, sanitisers and a COVID-19 information leaflet were distributed to the community.

The main aim of the campaign was to reinforce COVID-19 regulations to members of the community.

MEC of North West department of Public Safety and Transport, Hon. Sello Maake Lekgare reminded commuters to maintain a social distance of 1.5 metres, to continue to wear their masks and to wash their hands regularly.

COMMUNITY DAM SAFETY

DAM FENCES ARE IN PLACE TO PROTECT CHILDREN AND ANIMALS

In the interests of safety and health, community members are urged not to remove any fences that have been put in place around the dams.

These fences have been put in place to protect communities from harm and removing or damaging these fences could result in:

- Children swimming in contaminated water
- Increased risk of drowning, and
- Animals drinking contaminated water which may result in contaminated waterrelated illnesses.

theft and vandalism of fences to our tip-offs anonymous line on: 0800 001 987. Any reports that lead to an arrest and a guilty charge may be rewarded.

INVESTMENT IN K4 WILL CREATE LONG TERM EMPLOYMENT

SIBANYE-STILLWATER HAS APPROVED INVESTMENT INTO THE SUSTAINABILITY **OF MARIKANA**

The first stage is setting up surface and underground infrastructure over a nine month period, beginning in July 2021. Initial production work will begin over the next 12 months and build up over a period of time. In terms of the schedules for K4 and 4B, the company will provide more

information should some additional opportunities become available earlier than indicated.

Although the company will initially source internally, it will also provide opportunities for local communities and external recruitment for certain key critical or scarce skills.

INVESTING IN EDUCATION

CREATING AN ENVIRONMENT CONDUCIVE FOR LEARNING AND TEACHING IS ONE OF THE MAJOR PRIORITIES

We are committed to partnering with Government to facilitate and contribute towards this goal in our host communities. Overcrowding is a challenge in most of the schools around the Municipality and we have partnered with the Department of Education to build additional classrooms and renovate schools in the area. This improvement in infrastructure, we believe, will ultimately translate to increasing the pass rate at the school. The improvements will make it easier for the teachers and learners to conduct their work effectively.

One such project we are currently working on is the Mfidikoe Primary School extension and renovations. The project entailed building five additional classrooms and renovating the administration block.

Mathematics teacher training

In May, the company provided mathematics training to Grade 8 and 9 educators from the Rustenburg Sub district.

This five-day training ended with the certification ceremony for all the teachers that attended the training.

Schools that participated in this training included:

- Grenville High School
- Sunrise View Secondary School
- Marikana High School
- Thethe Secondary School
- Lerothodi Secondary School

- Zinniaville Secondary School
- Iketleetso Secondary School
- Tshukudu Secondary School
- Matlhare Mokautu Secondary School
- Boitekong Secondary School
- Matale Secondary School
- Khayalethu Secondary School
- Molotlesi Secondary School
- Freedom Park Secondary School
- Mphe-Bana Secondary School
- Bergsig Academy
- Hoerskool Rustenburg

- Platinum Village Secondary School
- Lesele Secondary School
- Harmony Christian School
- Marema Combined School

IMPROVED PRIMARY HEALTH CARE FACILITIES FOR THE **COMMUNITY OF MAJAKANENG**

Sibanye-Stillwater

has completed the extension and upgrade of Majakeng Clinic.

The extension has also provided additional space which helps with infection control, enables the integrated coding and clinic service management. This also helps community members to access services they need.

The work done on the building includes the upgrade of the maternity ward, the waiting area and consultation rooms of the main building.

Some of the community benefits from this project include temporary job creation for 28 community members and improved primary health care access to more than 19,000 community members of the greater Marikana area.

The project was completed in March 2021.

INVESTING IN HEALTH INFRASTRUCTURE

Sibanye-Stillwater has partnered with the North West Department of Health and Royal Bafokeng Nation (RBN) to improve health infrastructure. Ensuring the wellbeing of our neighbouring communities is part of our commitment.

In recent years, the local clinic in Mfidikoe has seen a significant increase in the number of patients as the area expands.

To help the clinic manage higher patient the pharmaceutical storage capacity was extended. Not having enough space to keep life-saving medication results in health risks to patients, especially, in cases of emergency and those with chronic conditions, as well as community dissatisfaction. Furthermore, work was done to waiting areas to separate patients

according to chronic, minor and mother and child categories to prevent infection. An emergency room and four consulting rooms were constructed.

UKWAKHA ILIFA ELITSHA LOKUPHILISA NETHEMBA EMADIKANA

Iziganeko zaseLonmin kunye nendawo eziyijikelezileyo, yemisebenzi yemigodi yaseMarikana ezakhokelela kwintlekele yase-Wonderkop ngo-2012 eyasuba imiphefumlo yabantu abangama-44, iza kukhunjulwa njengesinye sezona ziganeko zake zabuhlungu kushishino lwethu kunye nakwimbali yelizwe lethu.

Ngexa lesiFundo sakhe sokuphawula iSikhumbuzo saseMarikana ngoAgasti wonyaka ophelileyo uNjingalwazi Thuli Madonsela wayiphawula into yokuba into eyenzeka eMarikana yenzeka kuba silibele ukukhumbula. Indlela eya phambili ilele ekuphileni okufana macala phakathi kwabo bonke abantu ekusetyenziswana nabo.

Ngeke siyitshintshe into eyenzeke ngaphambili, kodwa amanyathelo esiwathathayo, ngokusekelwe kwizigqibo zanamhlanje, anokulitshintsha ikamva lethu. Kufuneka sikhaliphe ngokwaneleyo sicinge ngento esinokuba yiyo, ngexa sifunda kwizifundo ezinzima esizifunde ngaphambili.

Ecinga nzulu ngexa leSifundo seSikhumbuzo saseMarikana ngomhla we-14 Agasti 2020 sokunika imbeko kunye nokukhumbula abo baphulukana nobomi babo ngo-2012, Ohloniphekileyo, umxhasi wenkqubo yoVuselelo lweMarikana eza kwaziswa kule veki, uthe: "Ngexa siphile kweli xesha linzima kangaka, masiphoseleni amehlo ethu kwikamva elingcono. Ngamagama ka-Alan Paton, ayiyonto emalunga 'nokuxolela kunye nokulibala' ngokungathi akukho nto ingalunganga yake yenzeka, kodwa kukuba 'masixolele kwaye siye phambili,' sakhele kwiimpazamo zangaphambili oko kusenziwa ngoxolelaniso ukuze sakheni ikamva elitsha."

U-2020 uze nenye intlekele emhlabeni jikelele yoqhambuko lukabhubhane we-COVID-19. Iziqidi zabantu amhlabeni wonke ziphulukene nobomi kunye nempiliso yazo. Njengoko umhlaba usazama ukujongana nalo bhubhane, kunye nokuphuma kule ntlekele inkulu kangaka ngexesha lokuphila kwethu, iinkokeli ezininzi, amaziko kunye nemibutho emhlabeni wonke bathatha

amanyathelo "oKwakha kuBuyiselwa iMeko esiQhelweni" emva kwe-COVID.

ESibanye-Stillwater, sikholwa ukuba sinikwe ithuba kunye noxanduva lokudala ikamva elitsha eMarikana ngokufezekisa injongo yethu yokuphucula ubomi oko sikwenza ngezemigodi ezithatha uxanduva. Letter to the editor

I would like to bring the following scam, to which several people have fallen prey, to the public's attention.

Emails are being sent out to unsuspecting victims from a person using various cellphone numbers, but the main scam message stays more or less the same.

To look legit, he/she uses the logos and names of various estate agents, while using a Gmail address and not the company's domain email address. He/she then asks for a fee to secure the property. No agency will ever ask for a fee from a potential rentee unless they have seen the property they want to rent and signed a legal contract with the rentor or his/her agent.

If you have been defrauded in this manner, please open a case at the SAPS, as only victims are allowed to open a case in this matter. As a franchisee for Rawson and all property agents out there, please be careful and don't let them scam you.

'TJ' bounces back as municipal spokesperson

Rustenburg - Veteran communicator and public sector spokesperson Thapelo Matebesi is back with the Rustenburg Local Municipality (RLM).

Affectionately known as 'TJ' within local media circles, Matebesi has been re-appointed as spokesperson for the RLM on a month-to-month basis. His re-appointment fills the void left by the departure of former RLM spokesperson David Magae.

Known for his favourite saying, "allow me to titillate your tastebuds," Matebesi is not a stranger to this job. This is the second time that he will be serving the municipality in the same position after having done so for five years (between 2012 and 2018) during his first stint before venturing into consultancy work. A career government spokesperson, Matebesi spent 20 years with the North West provincial government and a further 10 years at two municipalities (five years with Mahikeng Local Municipality and five years with RLM). During his tenure, he served as spokesperson for two provincial MECs and three executive mayors with distinction and integrity.

His academic qualifications - a Bachelor of Arts (BA) in communication science, BA Honours and a Master of Business Administration (MBA) - have enabled him to grasp local government issues. RLM executive mayor councillor Mpho Khunou described Matebesi as a consummate professional. "We are delighted to once again work with Mr Matebesi."

Luka/ Rustenburg — Rorisang Lesenyego is the full package. This bright and beautiful 18-year-old has spent the past two years playing and living in Florida in the United States of America (USA) on a basketball scholarship. On Friday 2 July during a visit to her hometown, Luka, the *Platinum Weekly* caught up with her to find out more about her journey of becoming an international basketball player.

"I've always loved sports and used to play netball at school. One day after the netball season ended, I saw a few girls shooting balls at a hoop on the basketball court. I asked to join them and immediately fell in love with the game."

Rorisang started playing basketball and with her growing talent and the assistance of her local coach Johnny Rakhudu, she managed to get the scholarship to attend school and join a US basketball team. In 2019, at the age of 16, she boarded the plane to a country with a different culture to attend a school with people she has never met... and she shined!

Under the guidance of her new coach, Uter Mookie, she twice won the title of most valuable player in her first year. This has been the highlight of her basketball career so far. Even while spending at least six hours a day on the court training, she still makes sure that her studies are up to date.

She is at the top of her class and received a scholarship to study computer science at Belmont Abbey College in North Carolina, USA.

"I am extremely grateful to have been part of the Tunisi Foundation," she added. This leadership programme specialises in developing the youth to help them become responsible and successful members of society.

"On and off the court, my family members have been my biggest supporters."

For Rorisang, her ultimate dream is to be able to effect positive change for Africa with this platform that she has been given.

Her moto is: "Books and basketball before boys," a message she would like to instil in other young girls to encourage them to not get distracted but to continue following their dreams.

She finds inspiration from her background and hopes that she will continue to make not only her family but her community, Luka, proud.

Did you know?

It turns out that some people have an extra bone in their knee called a fabella. And while this particular little bone with an unknown purpose was once fading away, over the last century and a half, it has become more common.

Back in 1875, nearly 18% of people examined had a fabella. That number dropped to 11% by 1918. However, by 2018, 39% of individuals had this mysterious fabella in their knee.

Prompt deliveries at your doorstep – what a breeze! Or not...?

Yes. Some of the payments that I used to do instore, I now pay online. My DSTV account is an example. Online shopping is very convenient because it saves you a lot of time and you don't have the hassle of standing in a queue.

GSG football tournament postponed

Tlhabane/ Rustenburg – The Gilash Sports Group (GSG) has postponed a football tournament that had been scheduled for July, because of the escalation of Covid-19 infections.

The tournament – which is aimed at developing the talent of young players – was scheduled to be held from 12 to 24 July at Tlhabane Stadium. However, GSG executive chairman Gilroy Tlou explained that the recent announcement of the Covid-19 alert level 4 regulations had forced organizers of the showcase to shelve it for now.

"The management of the tournament and their associate partners will continue to monitor the situation and make further announcements after 11 July when the current lockdown has been reviewed by the government," Tlou said.

¹Though I speak with the tongues of men and of angels, but have not love, I have become sounding brass or a clanging cymbal.

²And though I have the gift of prophecy, and understand all mysteries and all knowledge, and though I have all faith, so that I could remove mountains, but have not love, I am nothing. ³And though I bestow all my goods to feed the poor, and though I give my body to be burned, but have not love, it profits me nothing.

⁴Love suffers long and is kind; love does not envy; love does not parade itself, is not puffed up; ⁵does not behave rudely, does not seek its own, is not provoked, thinks no evil; ⁶does not rejoice in

iniquity, but rejoices in the truth; ⁷bears all things, believes all things, hopes all things, endures all things. ⁸Love never fails. But whether there are prophecies, they will fail; whether there are tongues, they will cease; whether there is knowledge, it will vanish away.

⁹For we know in part and we prophesy in part. ¹⁰But when that which is perfect has come, then that which is in part will be done away.

¹¹When I was a child, I spoke as a child, I understood as a child, I thought as a child; but when I became a man, I put away childish things.
