He finally met his match at the liquor store next door. The owner of the store, Carel van Heerden has had a few run ins with people offering counterfeit money and accordingly, all the notes that pass through his till is scanned under an ultraviolet light.

"I know their modus operandi by now, they come in, take one beer and then try to pay with a R200 note. This man followed suit and when he handed my wife the note, she could feel it just didn't feel right. Once she checked it under the light, she confirmed her suspicions and called me," he said. Having dealt with these situations in the past, Carel took the money and actually wrote with word FAKE in big letters on it. "By doing this, it prevents the person from just moving on until he finds someone willing to take the money."

Banks refuse to take the counterfeit cash resulting in business owners losing money. Businesses are urged to report any incidents such incidents to the SAPS.

October school holidays for 2021 to be scrapped?

Solidarity announced (18 August) that its legal team is investigating the possibility of litigation against the Department of Basic Education (DBE). This follows the department's announcement that it believes the October school holidays for 2021 should be scrapped. In a letter to Basic Education Minister Angie Motshekga, Solidarity said it was opposed to this amendment to the school calendar.

"They choose to consider only one regulation while a number of others are disregarded as they are continuing to steamroller ahead with their plans, and that at the expense of the well-being of both learners and teachers," said Johan Botha, deputy general secretary of the Professional Sector at Solidarity. Solidarity claims that the department is in the process of changing the school calendar, which currently consists of four terms, into one of three terms, of which the last term will have twice the number of weeks.

Solidarity is also of the opinion that the DBE does not take into account its own policy that stipulates that learners and teachers must be given sufficient time to rest. According to Botha, the learners and teachers would benefit from it if the department rather adjusts the date of the submission of final marks so that the last two weeks of school on the calendar could be fully utilised by schools that need time to catch up. "We are of the opinion that it would be far more advisable to maximise the contact time that exists in the current calendar. Our teachers and their learners have worked hard over the past year to overcome the various challenges brought about by the Covid-19 pandemic. We cannot allow them to be deprived of their last proper break before the final exams," Botha concluded.

Rustenburg is fires are often started at night and when the wind is high and fire-fighting conditions are dangerous.

In a fire emergency, every second counts. Therefore, you must be proactive and prepared to defend your property from fire. According to the Greater Rustenburg Fire Protection Association (GRFPA), research of fire situations revealed that the forward rate of fire spread is roughly 10% of the average open wind speed, called the '10% Wind Speed Rule of Thumb'. What this means is that the forward spread rate when burning conditions are severe, namely when wind speeds are high, and fuels are dry is 10% of the wind speed. At wind speed of 25km/hr, a fire is estimated to spread at 2.5km/hr or 0.7m/s. Put another way... if a fire is 25m from you, and the wind is blowing at reach you. If the fire is burning uphill the

## Do you play Lotto?

No. I don't play Lotto because I cannot influence the results. I'm not comfortable with playing games or taking part in activities

I don't have control over. I play football and other sports because I know that with other players, we can all work towards achieving a certain result. In football, unlike Lotto, you can influence the results

Lazarus Mosebo

Yes, I enjoy playing Lotto I buy a ticket every Tuesday to try my luck. You never know, I might win one day! If this happens, I plan to relocate to Mauritius with my family. Playing the Lotto is easy for me because I just use an app.

Charmaine van Wyk

According to our religious beliefs as a Muslim, the money from lotto is not acceptable in Islam. A person must work for money. Nothing comes for free in life. Rather work hard and study. Remember easy come, easy go.

## SOULFOOD

#### **PSALM 34:1-11**

<sup>1</sup>I will bless the LORD at all times; His praise shall continually be in my mouth. 2My soul shall make its boast in the LORD; The humble shall hear of it and be glad. <sup>3</sup>Oh, magnify the LORD with me, And let us exalt His name together. 4I sought the LORD, and He heard me, And delivered me from all my fears. <sup>5</sup>They looked to Him and were radiant, And their faces were not ashamed. 6This poor man cried out, and the LORD heard him, And saved him out of all his troubles. 7The angel of the LORD encamps all around those

who fear Him, And delivers them. 8Oh, taste and see that the LORD is good; Blessed is the man who trusts in Him! 9Oh, fear the LORD, you His saints! There is no want to those who fear Him. <sup>10</sup>The young lions lack and suffer hunger; But those who seek the LORD shall not lack

any good thing. **NEW KING JAMES VERSION (NKJV)**

Chickens are technically dinosaurs. They are the closest living relative to the T-Rex. Researchers couldn't recover any DNA from the ancient dinosaur remains. But they did retrieve molecules of collagen, a structural protein that appears in slightly different forms in many animals. They compared the dinosaur version with 21 living animals, including humans, chimps, mice, chickens, ostriches, alligators and salmon. T-Rex's collagen proved to be most similar to chickens and ostriches; its next closest match was to alligators...

## **2021 RUGBY CHAMPIONSHIPS**

#### SA vs Argentinië

Die Bokke se B-span behaal 'n 32-12 oorwinning oor die Pumas. Dit was wel 'n wen maar glad nie mooi ruggas nie... Die Pumas het regtig 'n swak dag op kantoor gehad. Vir die Bokke het agsteman Jasper Wiese 'n baie goeie *game* gehad. Hy het kookwater spel op agsteman gelewer. Aphelele Fassi het op vleuel ook goeie spel opgelewer en sy balbeheer word ook beloon met 'n puik drie. Elton Jantijes het 'n afdag gehad en sal sy sokkies moet optrek. Teen die All Blacks sal dié soort spel nooit deug nie. Cobus Reinach het gewys dat hy dalk die vinnigste skrummie op die planeet is toe hy 'n prag drie gaan druk het na 'n breekslag van sowat sestig meter. Voorlangs het debutant Joseph Dweba op haker 'n goeie spel in sy eerste toets gelewer. Coach Jacques Nienaber se Bokspan is duidelik weer die A-span vir die tweede toets Saterdag.

#### Nieu-Seeland vs Australie

In Auckland klop die Kiwi's die Wallabies met 'n rekord sege van 57-22 en druk in die proses agt puik drieë. Die Aussies het alles in die stryd gewerp maar die manne in swart is maar net duidelik in 'n ander klas ou grote.

Die All Blacks het gewys dat hulle lus is vir ruggas en het 'n duidelike waarskuwing gerig aan die Bokke en die Pumas vir die 2021 reeks... Damian McKenzie het 'n reuse strafdoel van 59 meter toegedien.
