FORMER MINE EMPLOYEE SENTENCED TO 15 YEARS FOR R9 MILLION THEFT

Rustenburg – In a significant blow to corporate fraud, Dinah Botes, aged 42, has been handed a fifteen-year prison sentence by the Rustenburg Magistrates' Court. The sentencing, which took place on Friday, 16 February 2024, came after Botes was found guilty of an astounding 126 counts of theft. Botes' criminal activities came to light following meticulous investigations by the Hawks' Rustenburg-based Serious Commercial Crime Investigation unit. Between the years 2014 and 2019, while employed at a prominent local mine, Botes exploited her position to illicitly funnel over R9 million from her employer's funds into her personal bank accounts, a breach of trust that has had far-reaching implications. The case against Botes gained momentum on 13 June 2022, when the Hawks successfully obtained and executed a warrant for her arrest. Despite being released on R30,000 bail following her initial court appearance, Botes faced a series of legal battles leading up to her conviction and subsequent sentencing. Lieutenant colonel Tinyiko Mathebula, a spokesperson for the police, highlighted the complexity of the case and the determination of the investigative team in bringing Botes to justice. Major general Patrick Mbotho, the head of the North West Hawks, commended the investigation and prosecution team for their exceptional work.

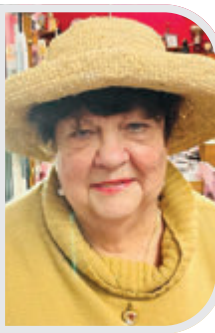

SCHOOL MOURNS THE PASSING OF A YOUNG LEARNER

Rustenburg – In a heartrending announcement, Itoko Special School has confirmed the devastating loss of one of its young learners, marking a sorrowful period for the community. The child, who had been missing since 19 January 2024, was found under tragic circumstances. His remains, discovered in a state of decomposition, were located at a bus depot in Tlhabane, bringing a somber conclusion to the search for the missing learner. This loss touches the hearts of all who knew the young boy, extending beyond the school's boundaries to envelop the entire community in grief. We extend our deepest sympathies and heartfelt condolences to the bereaved family, friends, and all who held the boy dear in this incredibly difficult time.

Rustenburg court fines clerk R20,000 for theft of court funds

Rustenburg/ Swartruggens – In a ruling delivered by the Rustenburg Serious Commercial Crime Court on Friday 16 February 2024, Gontle Petronella Maphologela, a 42-year-old financial clerk formerly employed at the Swartruggens Magistrates' Court, faced justice for her involvement in theft. Maphologela was handed a fine of R20,000 after being convicted on eight counts of theft, marking the culmination of a case that highlighted the vulnerabilities in the management of court funds. Between March and June 2021, Maphologela exploited her position, responsible for handling fines, bail monies, and other deposits, to

misappropriate eight cash-in-transit bags. Her method involved manipulating the court's financial records to conceal her thefts. This deceit came to light during an audit in October 2021, which identified unaccounted transactions totalling R42,800, leading to an official investigation.

The probe, conducted by the Mahikeng-based Hawks' Serious Commercial Crime Investigation team, resulted in Maphologela being summoned to court, with her initial appearance taking place in July 2023. After several court hearings, she opted for a plea agreement, which eventually led to her conviction and sentencing.

CREATIVITY UNLEASHED: Rustenburg’s young artists light up Three Star Powertrade walls

Rustenburg – On a vibrant Saturday morning, 17 February 2024, Rustenburg turned into a canvas of dreams for promising young artists of the community, thanks to Three Star Powertrade’s awesome Graffiti Wall competition. The air buzzed with excitement as 45 local kids, armed with paintbrushes and bursting with creativity, set the wall outside Three Star Powertrade ablaze with colour!

A burst of colour and fun!

The competition kicked off at 09:00 with each participant receiving a picture of a product from the generous sponsors at Three Star Powertrade. The challenge? To bring these images to life on the grand wall. From the fizz of a Rockstar energy drink to the tangy zest of Nando’s sauce, creativity knew no bounds as the young artists painted their hearts out. At noon, the young artists paused for a tasty treat of boerewors rolls, getting ready for the big finish. Everyone was buzzing with excitement while the judges made their choices, setting the stage for the prize-giving where the top five talents received some awesome rewards.

Prizes that paint smiles!

- First place: 10-year-old Ndiene Netangaheni dazzled with his Rockstar energy drink masterpiece, winning a R500 voucher and a whopping R1,500 grocery voucher monthly for six months — a grand total prize worth R9,500!
- Second place: 11-year-old Regomoditswe Mokwele captured the essence of Nando’s sauce, securing a R500 voucher and R1,000 in monthly grocery vouchers for six months, totalling R6,500.
- Creative contenders: Third to fifth places were no less spectacular, with each young artist receiving a R500 voucher along with R500 in monthly grocery vouchers for half a year, all adding up to a cool R3,500.

A community united in creativity

Wayne Labuschagne, Three Star Powertrade’s regional general manager, shared the spirit behind the event: “It’s more than a competition; it’s about enriching our community through the boundless creativity of our children. Each painted wall tells a story of hope, dreams, and the joy of giving back.” This unforgettable day not only celebrated the

Understanding patient billing at Job Shimankana Tabane Hospital

Rustenburg – In response to inquiries from our readers, *Platinum Weekly* has investigated the billing procedures at Job Shimankana Tabane Provincial Hospital. Contrary to common perception, it’s important to understand that services at state hospitals, including Job Shimankana Tabane Provincial Hospital, are not without cost, and patients may be subject to various fees. Job Shimankana Tabane Hospital has been gazetted as a level 2 hospital and is currently classified as a developing tertiary hospital, which makes it a level 3 hospital. The hospital serves as a referral hospital in the Bojanala District.

Clarifying billing procedures
To enhance transparency and facilitate better communication with the public, the hospital has provided detailed insights into its patient billing process. Billing at Job Shimankana Tabane is regulated by section 41(1) and (2) of the National Health Act, No. 1 of 2003, alongside the annual adjustments to the Uniform Patient Fee Schedule (UPFS) tariffs, as determined by the Minister of Health. These tariffs are adjusted in alignment with the prevailing inflation rate.

Fees to anticipate
Hospital admission costs range from R100 to R2392.00 per day, varying based on specific patient circumstances. To access services, patients are required to present:

- Identification or passport documents for adults.
- Birth certificates for children, provided by parents or guardians.
- Proof of income, such as a payslip.
- A referral letter from primary healthcare clinics or a R100 bypass fee for referrals from private doctors or clinics.
- Medical aid card, if you have one.
- Payment for consultation and admission fees.

Note that scripts or sick notes will only be issued post-consultation.

Acknowledging the diverse financial backgrounds of its patients, Job Shimankana Tabane Hospital employs a tiered pricing system. This approach is based on a guided screening process that assesses household income, ensuring equitable and fair pricing for the services rendered. It’s important to note that these prices are subject to annual revisions with each new financial year. Through this structured framework, the hospital is dedicated to making healthcare accessible to every segment of our community, reflecting its commitment to inclusivity and fairness in medical services.

Would you rather raise your child as a bully?

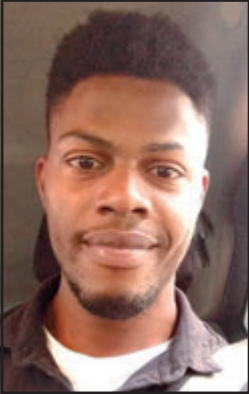

To navigating the challenges of parenting... Some parents face a difficult dilemma when it comes to raising their children in a world where bullying is a reality. There's a common concern that children must either adopt aggressive behaviour to avoid being bullied or risk becoming victims themselves. However, this perspective may overlook the vast spectrum of strategies that can foster resilience, empathy, and assertiveness in children without resorting to bullying behaviour.

We're interested in your opinion. Do you believe that parents are faced with a choice between raising their child to be a bully or leaving them vulnerable to being bullied? What are your thoughts on finding a balance?

No, I wouldn't raise my child to be a bully. I don't want to raise my child to break others down or belittle them; it's rude and cruel. I would rather raise my child to help and support others.

Dillon James

No, I don't believe parents have an option of either raising their kids as bullies or victims of bullies. We need teach our kids to spread love. There are always a few bad apples, but it doesn't mean you should throw all the apples out! I believe if we teach our kids how to care for another and show compassion, they might even change the bullies they encounter into becoming compassionate again.

PSALM 59

The Assured Judgment of the Wicked To the Chief Musician. Set to "Do Not Destroy." A Michtam of David when Saul sent men, and they watched the house in order to kill him.

59 Deliver me from my enemies, O my God; Defend me from those who rise up against me. 2 Deliver me from the workers of iniquity, And save me from bloodthirsty men. 3 For look, they lie in wait for my life; The mighty gather against me, Not for my transgression nor for my sin, O Lord. 4 They run and prepare themselves through no fault of mine. Awake to help me, and behold! 5 You therefore, O Lord God of hosts, the God of Israel, Awake to punish all the nations; Do not be merciful to any wicked transgressors. Selah. 6 At evening they return, They growl like a dog, And go all around the city.

PUBLIC NOTICE

INTENTION TO INTRODUCE (CONDUCT TRIAL RELEASES) OF GENETICALLY MODIFIED ORGANISMS (IN TERMS OF REGULATION 9 OF GENETICALLY MODIFIED ORGANISMS ACT 15 OF 1997)

IAVI South Africa NPC, situated at Ground Floor, Collingwood Building, Black River Park, 2 Fir Street, Observatory, 7925, Cape Town, South Africa intends to make an application to the Department of Agriculture, Land Reform and Rural Development (DALRRD), for approval to import the Genetically Modified Organism, MTBVAC into South Africa to conduct a Phase 2b clinical trial to evaluate the efficacy, safety and immunogenicity of a tuberculosis (TB) vaccine, MTBVAC, against TB disease in interferon gamma release assay (IGRA) positive adolescents and adults aged 14- 45 years living in TB endemic regions.

TB is the leading cause of death from an infectious disease globally. According to the World Health Organisation's 2023 Global TB Report, an estimated global total of 10.6 million people fell ill with TB, and TB caused an estimated 1.30 million deaths. South Africa is one of the 30 countries with the highest TB burden globally. Bacille Calmette-Guérin (BCG), a live attenuated strain of *Mycobacterium bovis* (*M.bovis*), is the only licensed TB vaccine. BCG is effective in preventing severe, disseminated TB in infants and young children, however, is not reliable in preventing TB in adolescents and adults. Even though more than 3 billion individuals have been vaccinated with BCG and over 100 million doses administered annually, BCG does not have a significant impact in controlling the overall TB disease burden. Consequently, there is an ongoing drive to develop more effective TB vaccines.

MTBVAC, manufactured by Biofabri S. L. U. (Spain), is a live-attenuated TB vaccine based on deletion of the genes encoding two major virulence factors, the transcription factor regulator PhoP and the virulence associated cell-wall lipids PDIM, from a clinical isolate of the Euro-American Mtb lineage, which is the most widespread lineage commonly transmitted between humans by the aerosol route. MTBVAC contains all genes present in the BCG vaccine plus the genes deleted in *M.bovis*. Because MTBVAC contains all Mtb genes, including the genes deleted in BCG vaccine (except phoP and fadD26), it can present a wider collection of mycobacterial antigens to the host immune system, a highly desirable feature for a vaccine.

The primary goal of this clinical trial is to assess the efficacy of MTBVAC in preventing pulmonary TB disease in IGRA positive, HIV-negative adolescents and adults living in areas endemic for TB. The trial will also assess the safety and immunogenicity of MTBVAC. Approximately 4,300 participants, 2,150 in each trial arm, will be enrolled into this trial, and will receive a single dose of MTBVAC or placebo. Participants will be followed up for a minimum of 24 months and a maximum of 36 months after vaccination. The clinical trial will start when the South African Health Products Regulatory Authority approval and relevant Ethics Committee approvals have been obtained.

The clinical trial will be conducted at the following clinical research centers in South Africa:

Aurum Institute, Rustenburg; **Aurum Institute**, Tembisa; **Be Part Research**, Mbekweni, Paarl; **CIDRI-Africa eKhayaVac**, Khayelitsha, Cape Town; **JOSHA Research**, Bloemfontein; **Perinatal HIV Research Unit**, Chris Hani Baragwanath Hospital, Soweto; **Synergy Biomedical Research Institute**, East London; **TASK Applied Science**, Delft Day Hospital, Cape Town; **TASK Applied Science**, George; **University of Cape Town South African Tuberculosis Vaccine Initiative**, Worcester; **University of Cape Town Lung Institute Centre for Lung Infection and Immunity**, Groote Schuur, Cape Town; **University of Cape Town Lung Institute**, Mowbray, Cape Town.

The clinical trial will implement stringent precautions to prevent release of the vaccine into the environment by supplying the vaccine in sealed containers, transport in shippers that meet international requirements for transport by air and road and will be stored in restricted access facilities. The vaccine injection will be prepared in a pharmacy, administered in a clinic environment by qualified and trained personnel, and only administered to participants that consented to the clinical trial.

Research centers will follow stringent procedures regarding the disposal of used syringes as biohazardous waste. Upon the completion of the clinical trial, any unused vaccines vials will be disposed in accordance with local guidelines for destruction of biohazardous material.

A copy of the application is available from DALRRD www.dalrrd.gov.za.

Interested parties may submit comments or objections within 30 days of this publication in writing to: Registrar: Genetically Modified Organisms Act, 1997, Private Bag X973, Pretoria, 0001 | Fax: 012 319 6329

Rustenburg Hoërskool se atletiekspan skitter by NW-Interhoër

Rustenburg – In 'n historiese oomblik vir Hoërskool Rustenburg (RHS) is die Noord Wes Interhoërtrofee vir die eerste keer in 18 jaar na 'n nuwe tuiste gebring, met die Rusties wat algeheel eerste plek behaal het tydens die Noord Wes Interhoër atletiekbyeenkoms. Met 'n indrukwekkende totaal van 1997.10 punte, het hulle hul naaste mededingers, Hoërskool Klerksdorp en Potchefstroom Gimnasium (Potch Gimmies), wat onderskeidelik tweede en derde geëindig het met 1966.50 en 1954.50 punte, oortref.

Die Rusties het uitblink in beide die A- en B-afdelings, en 'n merkwaardige hoeveelheid medaljes en trofee ingepalm: 26 goue, 38 silwer, en 28 brons in die A-afdeling; en in die B-afdeling het hulle 39 goue, 33 silwer, en 22 brons medaljes verower. Liandri de Wet is veral uitgesonder as die beste veldatleet van die dag, 'n toekenning vir die tweede agtereenvolgende jaar vir haar!

Die Rusties het ook op die dag verskeie nuwe rekords opgestel, wat die uitsonderlike talent en harde werk van die atlete en hul afrigters beklemtoon:

- Dogters o/14 100m - Jaydeen Manders
- Seuns o/14 spiesgooi - Juan Mathee
- Seuns o/14 aflosspan
- Seuns o/15 driesprong - Dian Huisamen
- Seuns o/15 aflosspan
- Seuns o/16 gewigstoot - Donovan Mostert
- Seuns o/19 skyfwerp - Jan-Paul Nel
- Dogters o/19 skyfwerp - Liandri de Wet
- Dogters o/19 spiesgooi - Marné Botha
- Seuns o/19 skyfwerp - Divan Welgemoed

Die skoolhoof, meneer Hennie Pieterse, en atletiekdirekteur, Danelle Bisschoff, is trots op elke atleet se bydrae tot die span se sukses. Die gemeenskap en skool vier hierdie merkwaardige prestasie en sien uit na wat die toekoms inhou vir die Rusties se atletiekspan.

Laerskool Vastrap raadsvoorsitter Jaco Volschenk het verfrissende roomys by sy stalletjie verkoop – 'n moet in die hittegolf!

Laerskool Vastrap vier liefde met 'n spesiale Valentynsdag Karnaval

Van links: Lemieke van der Walt, Bella Pieterse, Marhine Albrecht, en Leia van der Linde.

Rustenburg – Laerskool Vastrap het op Vrydag, 16 Februarie 2024, 'n onvergeetlike Valentynsdag Karnaval gehad. Die geleentheid was gevul met vreugde, kleur, en 'n wye verskeidenheid aktiwiteite wat almal se harte warmer gemaak het op hierdie snikhete dag.

Van heerlike lekkernye tot opwindende speelgoed, het die karnaval se stalletjies vir elke smaak iets gebied. Die leerders kon deelneem aan 'n verskeidenheid speletjies, insluitend toutrek en 'n treintjie wat vrolik deur die skoolterrein getoer het.

Die skool het ook 'n nuwe draai aan die viering gegee deur lootjies te verkoop waar die wenner die unieke prys ontvang het dat die skoolhoof vir een dag die leerder se huiswerk sou doen. Daarbenewens het Valentynsdag 'n ekstra dosis liefde versprei met die uitdeel van Valentynsdag briefies op die 14de, en 'n inkleurkompetisie wat spesiaal vir die juniors aangebied is.

"Die Valentynsdag Karnaval was 'n fantastiese geleentheid om nie net liefde te vier nie, maar ook om ons skool se gemeenskap te versterk," het die skool se projekkoördineerder, Hedri Coetzee, gesê.

Also known as Collagen Induction therapy (CIT) is a minimally invasive cosmetic procedure. It creates controlled trauma or micro injury to the skin which stimulates the skins natural healing abilities to encourage skin repair. Skin Care DOUBLE UP FOR BETTER BEAUTY

DELVE INTO THE TRANSFORMATIVE POWER OF DOUBLE CLEANSING, FOR HEALTHIER, CLEARER, AND MORE VIBRANT SKIN.

What is double cleansing?

Double cleansing is a skin care technique that involves washing the face twice with two different cleansers to achieve a deeper clean. This method helps to remove dirt, makeup, and other impurities from the skin without stripping away its natural oils. The idea behind double cleansing is to provide an extra layer of protection against skin damage caused by environmental factors such as pollution and UV rays.

How to double cleanse?

STEP 1

General cleansing should be done every day using a gentle cleanser or soap-free product. This will help to break down any excess oil, dirt and makeup that have built up on the surface of the skin throughout the day. It's important not to scrub too hard when you're washing your face, as this could cause irritation or redness. Instead, use lukewarm water and circular motions when applying your cleanser.

STEP 2

Double cleansing requires two separate products – one for removing makeup and another for deep-cleaning pores. For removing makeup specifically, it's best to opt for micellar waters or oil-based formulas that contain ingredients like hyaluronic acid or glycerin designed to hydrate while gently dissolving any stubborn residue from waterproof mascara or foundation. Once all traces of makeup are gone, a water or gel-based facial wash can be used to get rid of trapped sebum (oil) and bacteria deep within pores.

Look out for ingredients such as salicylic acid, which helps exfoliate dead cells on top of tackling blemishes. Or if you have dry skin, try something more mild like hyaluronic acid which does a great job at nourishing delicate areas.

How often should I double cleanse?

How often one needs to do this depends on one's individual skin concerns and lifestyle:

• Heavy makeup and sunscreen users

Consider double cleansing daily to ensure a thorough cleanse. Once in the morning before starting your daily routine then again at night before bedtime – this way all pore blockages will be removed properly allowing easier absorption for serums and moisturisers during the night.

• Sensitive or dry skin

Double cleanse on days you wear heavy makeup and sunscreen, otherwise daily use is not needed.

• Combination skin

Can be done on an as-needed basis. If you tend to use heavier products or live in areas with high pollution levels, then you might want to double cleanse more frequently.

Experimenting with different eyeshadow applications allows you to enhance your eyes and express your unique style. Here's how to achieve a mesmerising gaze that leaves a lasting impression.

CHOOSE THE RIGHT COLOURS

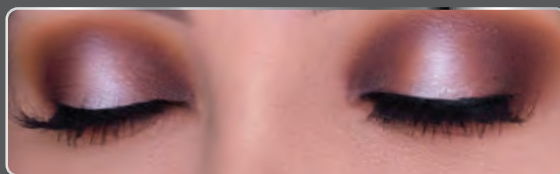

Select eyeshadow colours that complement your eye colour. From warm tones like copper and bronze for blue eyes to earthy hues like greens and purples for brown eyes. Experiment with various colours to find the ones that enhance your natural eye colour.

CLASSIC SMOKEY EYES

The timeless smokey eye will add depth and intensity to your gaze. Experiment with neutral tones like charcoal, taupe, and chocolate brown, blending them seamlessly to create a sultry, smouldering eye that works for both day and night.

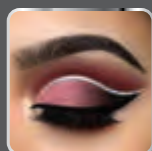

HALO EYE

For a bold and captivating appearance, apply a darker shade to the inner and outer corners of your eyes, leaving the centre open. Then, use a lighter shade in the middle, creating a halo effect that draws attention to the centre of your eyes, making them appear larger and more vibrant.

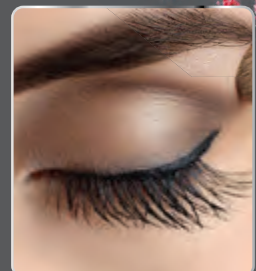

CUT CREASE MAGIC

Precision is key with this method. By defining the crease of your eyelid with a contrasting colour, you can achieve a sharp, dramatic look that accentuates the shape of your eyes. This technique works wonders for creating the illusion of more defined eyes.

MONOCHROMATIC ELEGANCE

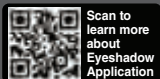

Simplify your eyeshadow routine by going for a monochrome look. Choose a single shade and apply it across your lid, blending it slightly into the crease. This approach can enhance your eyes without being overly complicated, perfect for a polished and sophisticated appearance.

POP OF COLOUR

Don't be afraid to add a burst of colour into your eyeshadow look. Whether it's a vibrant blue, a bold purple, or a striking green, adding a pop of colour to your lids can instantly elevate your look and make your eyes the focal point.

Elevate your makeup with these top techniques to make your eyes pop!

CAFFEINE

Beyond its awakening effects in your morning coffee, caffeine is a skin care marvel. Applied topically it can reduce puffiness and the appearance of dark circles, providing a revitalised and refreshed look.

AVOCADO EXTRACT

Packed with essential nutrients, avocado is a skin-loving ingredient. Its fatty acids and vitamins contribute to deep hydration and promoting a plump and healthy complexion.

FERMENTED TEA (KOMBUCHA)

Kombucha, a fermented tea, brings probiotics to the skin care arena. This ingredient supports the skin's microbiome, fostering a balanced and resilient barrier that can defend against environmental stressors.

WILLOW BARK EXTRACT

Nature's salicylic acid source, it gently exfoliates and unclogs pores. It's a natural choice for promoting clearer, smoother skin without the harshness that may occur with synthetic alternatives.

LYSINE

An essential amino acid that plays a key role in collagen production. Its inclusion in skin care formulations supports skin firmness and elasticity, contributing to a more youthful appearance.

BAKUCHIOL

Often hailed as a natural alternative to retinol, bakuchiol is derived from the babchi plant. It helps in reducing the appearance of fine lines and wrinkles, promoting a smoother and more refined complexion without the potential sensitivity associated with retinoids.

Top Tip:

When incorporating these clean beauty ingredients into your skin care routine, start with a patch test to ensure compatibility with your skin. Introduce one new ingredient at a time to observe how your skin responds, allowing you to tailor your routine for maximum effectiveness without overwhelming your skin.

Beauty from within

COLLAGEN is a major component of your skin but as you age, your body produces less collagen, leading to dry skin and the formation of wrinkles. Several studies have shown that collagen peptides or supplements containing collagen may help slow the ageing of your skin by reducing wrinkles and dryness.

COOL WITH COLLAGEN!

Cucumber, Spinach and Strawberry Salad

Dressing Ingredients:

- 1 clove garlic, minced
- Juice of 1 lemon
- 1 serving of the Collagen of your choice
- 4 tablespoons olive oil
- Salt and pepper

Salad:

- 3 cups of baby spinach
- 1 avocado, sliced
- 5 radishes, thinly sliced
- 1 cup strawberries, stalks removed and sliced
- 3/4 cucumber, thinly sliced or shaved

Method:

In a small bowl, combine the dressing ingredients and mix well. In a large bowl, add the salad ingredients and toss lightly. Drizzle with salad dressing and serve.

Golden Turmeric Latte

Ingredients:

- 1 cup of non-dairy milk
- 1 scoop Super Youth collagen peptides, unflavoured
- 1/8 tsp fresh ginger
- 1/8 tsp turmeric
- 1/8 tsp cinnamon
- 1 tbsp coconut sugar
- 1/2 tsp coconut oil
- pinch of pepper

Method:

- 1 Blend all of the ingredients in a high-speed blender and pour into a small saucepan.
- 2 Warm up the turmeric milk over low-medium heat. Use a stick blender to froth the mixture. Alternatively, froth it by rapidly mixing with a stainless-steel whisk.
